

Narrow Dutchess Radiator 460mm | 610mm | 795mm

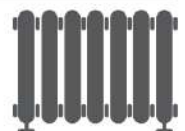

The Narrow Dutchess Cast Iron Radiators are slightly slimmer than the Traditional Princess Cast Iron Radiators, but a very similar design that can be used in combination.

Believed to be originally manufactured by the American Radiator Company circa 1890, its shallow depth is ideally suited for hallways and narrow rooms.

Originally known as the 'Peerless' radiator, this model is very much a modern day classic.
