

Sovereign Baroque Radiator 960mm

Cast Iron Radiators Sovereign Baroque 960mm is the tallest of this ornate range and looks great in larger rooms where a higher heat output is required. With slightly larger proportions, these Baroque Cast Iron Radiators become a real feature even in the largest of rooms.

Sovereign Cast Iron Radiators are cast in Europe using traditional techniques and the same moulds that have been in use for generations. With paper gaskets and European levels of casting tolerance, this range of cast iron radiators are simply the best available in the UK today.
